1. Aims

This policy aims to ensure that:

- Intimate care is carried out properly by staff, in line with any agreed plans
- The dignity, rights and wellbeing of children are safeguarded
- Pupils who require intimate care are not discriminated against, in line with the Equality Act 2010
- Parents/carers are assured that staff are knowledgeable about intimate care and that the needs of their children are taken into account
- Staff carrying out intimate care work do so within guidelines (i.e. health and safety, manual handling, safeguarding protocols awareness) that protect themselves and the pupils involved

Intimate care refers to any care that involves toileting, washing, changing, touching or carrying out an invasive procedure to children's intimate personal areas.

2. Legislation and statutory guidance

This policy complies with [statutory safeguarding guidance](#).

3. Role of parents/carers

3.1 Seeking parental permission

For children who need routine or occasional intimate care (e.g. for toileting or toileting accidents), parents/carers will be asked to sign a consent form.

For children whose needs are more complex or who need particular support outside of what's covered in the permission form (if used), an intimate care plan will be created in discussion with parents/carers (see section 3.2 below).

Where there isn't an intimate care plan or parental consent for routine care in place, parental permission will be sought before performing any intimate care procedure.

If the school is unable to get in touch with parents/carers and an intimate care procedure urgently needs to be carried out, the procedure will be carried out to ensure the child is comfortable, and the school will inform parents/carers afterwards.

3.2 Creating an intimate care plan

Where an intimate care plan is required, it will be agreed in discussion between the school, parents/carers, the child (when possible) and any relevant health professionals.

The school will work with parents/carers and take their preferences on board to make the process of intimate care as comfortable as possible, dealing with needs sensitively and appropriately.

Subject to their age and understanding, the preferences of the child will also be taken into account. If there's doubt whether the child is able to make an informed choice, their parents/carers will be consulted.

The plan will be reviewed twice a year, even if no changes are necessary, and updated regularly, as well as whenever there are changes to a pupil's needs.

See appendix 1 for a blank template plan to see what this will cover.

3.3 Sharing information

The school will share information with parents/carers as needed to ensure a consistent approach. It will expect parents/carers to also share relevant information regarding any intimate matters as needed.

4. Role of staff

4.1 Which staff will be responsible

Any roles who may carry out regular intimate care will have this set out in their job description.

Other staff members would carry this out on a voluntary basis.

All staff at the school who carry out intimate care will have been subject to an enhanced Disclosure and Barring Service (DBS) with a barred list check before appointment, as well as other checks on their employment history.

4.2 How staff will be trained

Staff will receive:

- Training in the specific types of intimate care they undertake
- Regular safeguarding training
- If necessary, manual handling training that enables them to remain safe and for the pupil to have as much participation as possible

They will be familiar with:

- The control measures set out in risk assessments carried out by the school
- Hygiene and health and safety procedures

They will also be encouraged to seek further advice as needed.

5. Intimate care procedures

5.1 How procedures will happen

- Manual handling of pupils: where possible children should sit on the toilet themselves using the step if necessary.
- Where a child cannot sit themselves on the toilet an adult will lift them onto the seat.
- Disposable gloves should be used by adults.
- Pull-ups and nappies should be disposed of in a nappy bag and put in a suitable waste container.

- Supplies of suitable cleaning materials should be provided for cleaning and disinfecting soiled surfaces.
- Supplies of fresh clothes should be easily to hand so that the child is not left unattended whilst they are found.
- For pupils needing routine intimate care, the school expects parents/carers to provide, when necessary, a good stock (at least a week's worth in advance) of necessary resources, such as nappies, underwear and/or a spare set of clothing.
- Any soiled clothing will be contained securely, clearly labelled, and discreetly returned to parents/carers at the end of the day.
- A risk assessment will be carried out and reviewed periodically

Safeguarding during procedures

- From a child protection perspective, intimate care involves risks both for children and adults as it may involve the adults touching the private parts of the child's body.
- It is not usually practicable from the point of view of staffing resources for there to be two members of staff involved with a child for intimate care unless for health and safety reasons e.g. with a child who is ill or difficult to move or handle.
- Whilst the presence of two people may be seen as providing protection against a possible allegation of abuse against a member of staff, it further erodes the privacy of the child. Therefore, members of staff should make their intention and purpose known to others before commencing intimate care with a child as a sensible precaution.
- Staff are not required to only change pupils of the same gender, but they must have an enhanced DBS with a barred list check.

Encouraging children to be independent

- Wherever children can learn to assist in carrying out aspects of intimate care, they should be encouraged to do so. This practice fits into the school's personal and social development programme in terms of giving children life skills and developing their independence.
- Whilst the young children will vary in terms of age, background, ethnicity, level of dependency and communication skills, they have the right to be treated with sensitivity and respect, so that their experience of intimate care is a positive one. Therefore it is important that we:
 - Ensure privacy appropriate to the child's age and the situation.
 - Allow the child to care for themselves as far as possible.
 - Be aware of, and responsive to, the child's reactions.
 - When carrying out intimate care away from school or setting, remember the main issues of privacy and safety.

5.2 Concerns about safeguarding

If a member of staff carrying out intimate care has concerns about physical changes in a child's appearance (e.g. marks, bruises, soreness), they will report this using the school's safeguarding procedures.

If a child is hurt accidentally or there is an issue when carrying out the procedure, the staff member will report the incident immediately to the Headteacher or Deputy Headteacher in their absence.

If a child makes an allegation against a member of staff, the responsibility for intimate care of that child will be given to another member of staff as quickly as possible and the allegation will be investigated according to the school's safeguarding procedures.

6. Monitoring arrangements

This policy will be reviewed by the Headteacher annually. At every review, the policy will be approved by the governing body.

7. Links with other policies

This policy links to the following policies and procedures:

- Accessibility plan
- Child protection and safeguarding
- Health and safety
- SEND
- Supporting pupils with medical conditions

Appendix 1: template intimate care plan

PARENTS/CARERS	
Name of child	
Type of intimate care needed	
How often care will be given	
What training staff will be given	
Where care will take place	
What resources and equipment will be used, and who will provide them	
How procedures will differ if taking place on a trip or outing	
Name of senior member of staff responsible for ensuring care is carried out according to the intimate care plan	
Name of parent or carer	
Relationship to child	
Signature of parent or carer	
Date	
CHILD	
How many members of staff would you like to help?	
Do you mind having a chat when you are being changed or washed?	
Signature of child	
Date	

This plan will be reviewed twice a year.
